

European Federation of Dramatherapy

# 5th EUROPEAN DRAMATHERAPY CONFERENCE

MAY 7–8 2021 | ONLINE

## WHO IS GODOT?

Strange period, strange experience, mixed emotions. They say it's coming. Or maybe it's already here. But what? The Corona virus waves? Social virus? Depression? Revelation? Redemption? Change? Or maybe this all is yet about to come. And maybe not. Remember Godot play? What or who is Godot of these times? What is Godot in contemporary drama therapy? And how can we handle with it? Or how can we use it for therapeutic purposes?

Because of the unstable situation caused by anti-covid measures and totally unpredictable situation, the EFD conference is going to take place online. We are happy and excited to be together and even if we will not meet in person, we will do our best to make this event a comparable experience!

The 2 days will offer an interactive space for workshops, papers, discussions and play, with interesting ideas and presenters.

The cost of the conference is 60 euro (plus the service fees of the ticketing platform of about 5 euro). For buying the tickets and register for the conference, access this link:

<https://www.eventbrite.com/e/5th-european-drama-therapy-conference-who-is-godot-tickets-144751596923>

Once you have purchased the ticket you will receive the link to Sched, so you can access the programme of the conference and choose your workshops and papers. Please sign in and make your choices as soon as possible (some workshops have limited number of participants).
